MSDS – MATERIAL SAFETY DATA SHEET

1. IDENTIFICATION OF PRODUCT AND COMPANY

Name of Product:	Keratin – Inca Glow
Manufacturers/ Distributor:	Abundant Beauty by Design Inc 3 Carrie Hood In Somerset, MA 02726 USA CNPJ: 09.217.010/0001-58 Aut. ANVISA: 2.05322-1 Tel.: +001877-606-7266 Email: info@incaglow.com

2. COMPOSITION AND INFORMATION ON INGREDIENTS

Component Of Formula (in decreasing order of concentration)
Aqua
Cetearyl Alcohol
Cocos Nucifera Oil
Polyquaternium-7
Glycolic Acid
Lactic Acid
Glycerin
Paraffinum Liquidum
Polyquaternium-37
Cetrimonium Chloride
Behentrimonium Chloride
Sericin
Trideceth-6
Alcohol
Phenoxyethanol
Plukenetia Volubilis Seed Oil
Caprylyl Glycol
Parfum
Guar Hydroxypropyltrimonium Chloride
Hydroxyethylcellulose
Cinnamal
Disodium Edta
Peg-90m
Limonene
Hydrolyzed Quinoa
Butylphenyl Methylpropional
Linalool
Alpha-Isomethyl Ionone
Butylene Glycol
Geraniol
Coumarin
Citral
Amyl Cinnamal
Benzyl Salicylate
Citronellol
Hexyl Cinnamal
Hexyl Salicylate
Potassium Sorbate
Cellulose
Sodium Acetate
Ethylhexylglycerin

3. HAZARDS IDENTIFICATION

The mixture does not meet the criteria for a hazardous substance.

4. FIRST AID MEASURES

Ingestion:	They are not normally required emergency care. If accidentally swallowed, do not induce vomiting. Seek urgent medical attention.
Inhalation:	Not applicable.
Contact with eyes:	Wash with plenty of water for several minutes (+/- 15). If you persist some irritation consult an ophthalmologist.
Contact the pure product with skin:	Wash with soap and water.
Recommendation general:	If potential for exposure exists refer to Section 8, Exposure Controls and Personal Protection, for specific personal protective equipment.
Most important symptoms and effects, both acute and delayed:	Aside from the information found under Description of first aid measures (above) and the Medical Care Indication Immediate and special treatment needed (below), no additional symptoms and effects are anticipated.
Indications about urgent medical care attention and special treatment needed:	There is no specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

5. PREVENTION MEASURES AND FIRE FIGHTING

Flashpoint:	Not applicable.
Flammability:	Not flammable.
Flammability Limit:	Not applicable.
Fire Extinguishing Media:	Water. Dry chemical fire extinguishers. CO ₂ extinguishers.

Extinguishing media to avoid: Not determined.

Special procedures to fight fire: Wear self-contained unit of positive pressure breathing apparatus and firefighting protective clothing (including fire fighting helmet, coat, pants, boots and gloves). If the protective equipment is not available or not used, fight fire from a protected location or from a safe distance.

6. MEASURES SPILL / LEAK

Personal precautions, protective equipment and emergency procedures: Isolate area. Ensure adequate ventilation. Keep unnecessary and unprotected personnel from entering the area. Spilled material may cause a slipping hazard. Refer to Section 7, Handling and Storage, for additional precautions. Use appropriate safety equipment. For further information should refer to Section 8, Exposure Control and Personal Protection.

Environmental precautions: Avoid entering into soil, ditches, sewers, waterways and / or groundwater. See Section 12, Information Ecotoxicological.

Methods and materials for containment and cleaning up: Contain spilled material if possible. Absorb with materials such as non-combustible material. Sand. Wash spill site with water. Large spills: Collect in suitable and properly labeled containers. See Section 13, considerations Treatment and Disposal for further information.

7. HANDLING AND STORAGE

General Handling: Avoid eye contact. Wash thoroughly after handling. No smoking, open flames or sources of ignition in handling and storage. Good housekeeping and controlling of dusts are necessary for safe handling of the product. Connect and electrically ground all containers, personnel and equipment before transfer or use the product. Keep away from heat, sparks and flame. Protect from heat. Keep container closed. See Section 8, Exposure Control and Personal Protection.

Storage: Store in a dry place. Protect from atmospheric moisture. Avoid prolonged exposure to heat and air. Unopened containers of material stored beyond the recommended shelf life should be discarded, see Section 13, considerations Treatment and Disposal, observing local regulations.

8. EXPOSURE CONTROL AND PERSONAL PROTECTION

Measures to reduce the possibility of exposure: Using industrial uniform.

Parameter to control: You do not need control and special protection.

Weighted permissible limits (LPP) and absolute (LPA): There are no references.

Breath protection:	It is not necessary.
Protective gloves:	Rubber or other waterproof material.
Eye protection:	Safety glasses (with side shields).
Other protective equipment:	Eyewash and emergency shower.
Ventilation:	Normal.

9. PHYSICAL AND CHEMICAL PROPERTIES

pH at 25°C:	1,5 at 3,5;
Density (g/mL) at 25°C:	0,9800 at 1,1000;
Viscosity at 25°C:	6.000 at 15.000 mPa.s;

10. STABILITY AND REACTIVITY

Chemical stability:	Under normal conditions the product is stable.
Reactivity:	Unreactive under normal conditions of use.
Possibility of Hazardous Reactions:	Unknown.
Conditions to avoid:	Strong oxidizing agents.
Incompatible materials or substances:	Avoid nitric or sulfuric acid concentrate and strong oxidizing agents.
Hazardous decomposition products:	Burning may produce smoke, carbon monoxide, carbon dioxide and other products of incomplete combustion.

11. TOXICOLOGICAL INFORMATION

Acute toxicity:	Data not available.
Corrosion / irritation:	Data not available.
Serious eye damage / irritation:	Data not available.
Awareness:	Data not available.
Germ cell mutagenicity:	This product should not present a danger Germ cell mutagenicity.
Carcinogenicity:	Data not available.
Toxicity reproduction and	It is not expected to affect reproduction or development.

lactation:

Toxicity for certain target organs - single exposure: Data not available.

Toxicity for specific target organs - repeated exposure: Data not available.

Aspiration hazard: Data not available.

Chronic Toxicity: Data not available.

Main symptoms: May cause eye irritation. If ingested can cause abdominal discomfort and nausea.

Specific effects: Data not available.

Local effects: Data not available.

Exposure routes: Skin and eyes.

Delayed and immediate effects and also chronic effects from short and long term exposure: Data not available.

12. INFORMATION ON ECOLOGY

Instability: There is no reference.

Persistence degradability: / This product is expected to be biodegradable.

Bioaccumulation: It is not expected to bioaccumulate in organisms.

Effects on environment: There is no reference.

13. WASTE DISPOSAL

Product: According to the regulations of local authorities refer to a waste incineration plant for disposal. Observe local regulations.

Rest of products: According to the regulations of local authorities refer to a waste incineration plant for disposal. Observe local regulations.

Used packaging: According to the regulations of local authorities refer to a waste incineration plant for disposal. Observe local regulations.

14. TRANSPORT INFORMATION

National and Ranked as a product not hazardous for transport

**international
regulations:**

Land (ADR / RID): Not Rated.

Waterways (IMO / IMDG): Not Rated.

Air (ICAO / IATA): Not Rated.

15. REGULATORY INFORMATION

Observe local regulations.

16. OTHER INFORMATION

The information in this data sheet is intended solely probable safety requirements and are based on the current state of our knowledge. Users should consider these data only as a supplement to other information gathered by them and must make their own decisions regarding the adequacy and completeness of the information, taking into account all possible sources in order to ensure proper use and disposal of these materials the safety and health of its employees and customers and protecting the environment, observing the laws and local regulations in force.
