This brand has three (3) Material Safety Data Sheets (MSDS) for its ingredients. MSDS are presented in the following order:

- Preference by L'Oreal Developer- 20 Volume
- Preference by L'Oreal Color Gel Hair ColorPreference Care Supreme Conditioner

Please scroll down to view each MSDS.

#99-028 Material Safety Data Sheet U.S. Department of Labor May be used to comply with Occupation Safety and Health Administration OSHA's Hazard Communication Standard (Non-Mandatory Form) 29 CFR 1910.1200. Standard must be Form Approved consulted for specific requirements OMB No. 1218-0072 Note: Blank spaces are not permitted. If any item is not applicable, or no IDENTITY information is available, the space must be marked to indicate that. 0-25 Volume Developer and Other Products Containing < 8% Hydrogen Peroxide Section I Manufacturer's Name **Emergency Telephone Number** (800) 535-5053 (Int'1 352-323-3500) L'Oreal USA Products, Inc. Address (Number, Street, City, State, and ZIP Code) Telephone Number For Information 111 Terminal Avenue (732) 499-2745 Date Prepared Clark, NJ 07066 September 27, 2004 Signature of Preparer (optional) Section II - Hazardous Ingredients/Identity Information ACGIH Other Limits Hazardous Components (Specific Chemical Identity; Common Name(s)) OSHA PEL TLV Recommended % (optional) Hydrogen Peroxide <88 1 ppm Section III - Physical/Chemical Characteristics **Boiling Point** Specific Gravity (H2O = 1) ~212°F ~1 Vapor Pressure (mm Hg) Melting Point N/A N/A Vapor Density (AIR = 1) Evaporation Rate (Butyl Acetate = 1) N/A <1 Solubility in Water Miscible pH = ~2.5

Appearance and Odor

 N/A

Extinguishing Media

Use media appropriate for materials actually involved in the fire.

Special Fire Fighting Procedures

Upon decomposition, peroxides yield oxygen and may thereby stimulate the combustion of flammable and combustible materials. Extinguish fires with media appropriate for the burning material.

Unusual Fire and Explosion Hazards

Caution: Oxidizer. Residual product on towels, sponges, or mops may cause fire. Rinse towels thoroughly before disposal. Rinse sponges and mops thoroughly before storage.

Signs and Sympto		No es, and	No /or mucous membranes.	

Emergency and First Aid Procedure

If swallowed, drink one or two glasses of water or milk. Call a physician, hospital emergency room, or poison control center immediately. Do <u>not</u> induce vomiting. Get medical attention. If in eyes, flush with water for at least 15 minutes and get medical attention. If on skin, flush with water, then wash with soap and plenty of water. Consult a physician if irritation occurs.

Section VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled

For small spills, wipe up with paper towels or a sponge. Wash area with water. Rinse paper towels, sponges, or mops thoroughly prior to disposal or storage. For large spills, dike and contain the free liquid. Use absorbant material to solidify spill and then place in proper containers for disposal.

Waste Disposal Method

Although dilute (<8%) hydrogen peroxide solutions are <u>not</u> regulated as hazardous wastes under RCRA, physical and/or chemical deactivation/degredation of the peroxide solution is the recommended method of treatment and disposal for these products.

Precautions to be Taken in Handling and Storage

Do not use or store with or near fuels, solvents, or other organic materials. Avoid iron, zinc, and reducing agents. Store in a cool place away from direct sunlight. Keep out of reach of children.

Other Precautions

For external use only. Use only as directed.

Section VIII - Control Measures

#99-028

Respiratory Protection (Specify Type)

None required for product use. For handling bulk quantities, use a NIOSH-approved respirator if peroxide TLV is exceeded. For spills or fires, wear a self-contained breathing apparatus.

Ventilation	Local Exhaust	Recommended	Special	
	Mechanical(General)	Acceptable	Other	

Protective Gloves

Plastic or rubber.

Other Protective Clothing or Equipment

Safety glasses with side shields or full face shield) and protective clothing are recommended for manufacturing operations. Safety shower and eyewash station should be immediately available.

Work/Hygienic Practices

OSHA hazard classification: Oxidizer, irritant, slightly toxic.

DOT classification: Bulk - Not regulated.

Finished Product - Not regulated.

#99-013 Material Safety Data Sheet U.S. Department of Labor May be used to comply with Occupation Safety and Health Administration OSHA's Hazard Communication Standard (Non-Mandatory Form) 29 CFR 1910.1200. Standard must be Form Approved consulted for specific requirements OMB No. 1218-0072 Note: Blank spaces are not permitted. If any item is not applicable, or no IDENTITY information is available, the space must be marked to indicate that. Permanent Hair Dyes Containing Ethanol Section I Manufacturer's Name **Emergency Telephone Number** L'Oreal USA Products, Inc. (800) 535-5053 (Int'l 352-323-3500) Address (Number, Street, City, State, and ZIP Code) Telephone Number For Information 111 Terminal Avenue (732) 499-2745 Date Prepared Clark, NJ 07066 December 18, 2003 Signature of Preparer (optional) GCD

Flash Point (Method Used)	Flammable Limits	LEL	UEL
80-120°F (closed cup)	Ethanol	3.3%	19%

Carbon dioxide, dry chemical, foam, and/or water spray.

Special Fire Fighting Procedures

For small fires, use carbon dioxide, dry chemical, and/or foam.

For larger fires, use ample quantities of water.

Unusual Fire and Explosion Hazards

None; however, observe usual precautions for handling of flammable materials. For manufacturing, minimize airborne vapor levels through engineering controls.

Hazardous Decom None known. Hazardous	May Occur Will Not Occur	ts X	Conditions to Avoid	None known.		Ingest	tion?	

Harmful if swallowed, inhaled, or absorbed through skin. This product may cause serious irritant, respiratory, and/or allergic reactions in sensitive individuals.

Carcinogenicity:	NTP?	IARC Monographs?	OSHA Regulated?	
	No	No	No	

Signs and Symptoms of Exposure

Signs of alcohol intoxication may occur following ingestion or prolonged inhalation. Also, possible irritation of eyes, skin, and mucous membranes. Possible irritant/allergic dermatitis and respiratory signs and symptoms, the onset of which may be delayed.

Medical Conditions Generally Aggravated by Exposure

Existing dermatological conditions, such as eczema, and respiratory conditions, such as bronchial asthma and/or chronic bronchitis, may be exacerbated.

Emergency and First Aid Procedure

If swallowed, call a physician, hospital emergency room, or poison control center immediately. Induce vomiting only if recommended by medical personnel. Get prompt medical attention. If affected by inhalation, move to fresh air. If symptoms persist, get medical attention. If eye or skin contact occurs, immediately flush with water and get medical attention if irritation occurs.

Section VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled

Eliminate all sources of ignition. Dike and contain the free liquid, if any, and absorb on vermiculite, spill pillows, or other suitable absorbant material. Place spent absorbants in proper containers for disposal.

Waste Disposal Method

This material is not regulated under RCRA. Accordingly, incineration at a non-hazardous waste treatment facility is the preferred method of disposal.

Precautions to be Taken in Handling and Storage

Store bulk quantities in a cool, well-ventilated room away from ignition sources. Avoid contact with eyes and skin (other than areas of application). Do not inhale or ingest. Prepare and use in a well-ventilated area. To assure maximum shelf-life, avoid direct sunlight.

Other Precautions

For external use only. Use only as directed. Keep out of reach of children. Patch test is intended to identify skin reaction only; it will not necessarily predict sensitization or irritation secondary to inhalation. Read the product package insert completely.

Section VIII - Control Measures

Respiratory Protection (Specify Type)

For manufacturing/filling, wear a NIOSH-approved respirator if constituent TLVs are exceeded. For spill management, use an approved self-contained breathing apparatus. For product use, respiratory protection is generally unnecessary.

Ventilation Local Exhaust Explosion-Proof Special

Mechanical (General) Explosion-Proof Other

Protective Gloves

Plastic or rubber gloves.

Other Protective Clothing or Equipment

Safety glasses with side shields and protective clothing for bulk quantities.

Work/Hygienic Practices

OSHA hazard classification: Flammable/combustible, irritant, slightly toxic, possible

sensitizer.

DOT classification: Bulk - Not regulated.

Finished Product - Not regulated.

Material Safety Data Sheet

Products associated with this document are exempt from OSHA's Hazard Communication Standard

29 CFR 1910.1200, due to low presence or no presence of hazardous materials. Standard must be

consulted for specific requirements and reporting thresholds.
